

The Senior Resource Alliance medication review program provides a personal medication review by a registered nurse, typically in a seniors residence. Interested seniors and caregivers schedule a *free personal* medication assessment. After the assessment is completed, a personal, easy to use medication record will be developed and provided to the participant. Additionally, copies of the medication record can be provided to physicians and family members at the participant's request.

Who should consider participating in the program?

- Any senior who takes more than 4 medications (includes all medications, prescription, over the counter medications, herbals, vitamins, etc.)
- Any senior who received prescriptions from more than one healthcare provider
- Any senior who uses more than one pharmacy
- Any senior who does not fully understand their medications
- Any senior who does not feel comfortable talking with their healthcare provider about their medications.
- Any senior who may be at risk for affording necessary medications
- Any senior who expresses interest in learning more about their medication, or even just having a professional develop a personal and usable medication print out for them.

For more information please call 407-234-7354 or 407-514-1816. Please note, this is not an emergency medication service, pharmacy or healthcare provider office. It is up to you and your healthcare provider to make personal healthcare and medication decisions.
